- Responsive webpages
Tech Stack: JavaScript | HTML | CSS | JSON
Areas of responsibility:
- Built authentication and Sign-In/Sign-up with the frontend.
- Developed Product and Category pages.
- Integrated a user friendly payment gateway.

ABOUT ME

MERN stack developer with over a year of practical experience. Skilled in MongoDB, Express.js, React.js, and Node.js, proficient in both front-end & back-end development. Proven ability to deliver quality code on time in Agile environments. Passionate about continual learning & innovation in web development.

WORK EXPERIENCE

Full Stack Developer
Nirmaan Organization, Bengaluru
January 2023 to Present

SWASHA (E-Commerce) :
- An e-commerce platform for under-served women beneficiaries to sell their hand-made products to the customers and generate a sustainable livelihood.
- Played a vital role in team-based creation of backend APIs using Node, MongoDB, and Express, fostering effective collaboration.
- Contributed to the development of essential frontend pages, ensuring a cohesive and user-friendly interface.
- Facilitated effective collaboration within the team, ensuring open communication channels and a shared understanding of project goals.

Nirmaan Skills Portal :
- Developed a Nirmaan Skills Portal frontend using React, focusing on the user friendly interface.
- Collaborated effectively within the team to implement frontend solutions, ensuring the successful completion of the skills portal project.
